A. PENINSULA DRIVEWAY FROM
PORT ORANGE TO FORCE PARK

CONSTRUCTION OF THIS ROAD MAY BEING ACCELERATED AND MEETING WITH VERY FAVORABLE RECEPTION.

W. N. Colfax of Port Orange was in the city yesterday on business connected with the proposed roadway to the peninsula from Port Orange to Ponce de Leon.

Mr. Colfax says the project is being very liberally supported throughout the county, but it is necessary to have first in the hands before commencing, he said, to the satisfaction of the county commissioners to secure the use of the county funds for the work.

Mr. C. C. Brown, a well known and prominent citizen of Fort Sumner, has been selected as treasurer of the local "Red Cross" committee located in that city to assist its work.

Robertson and Oldfield Both Drive Exhibition.

GROUND IN WIRES PREVENTED TAKING TIME OF THE CARS.

Failure of the timing apparatus to work this afternoon, necessitated the postponing of the trials by "Barney" Oldfield and George Robertson, with the Christie car for the mile and kilometer until tomorrow afternoon. The wires were laid rather late today and a short circuit was formed which could not be located before the race came in.

Barney Oldfield did his exhibition mile in 27.2 seconds this afternoon, with Ben Herscher doing the clocking.

While it was at first the intention to have today only exhibition trials, the beach was in such excellent condition that it was regretted both Oldfield and Robertson did not have an opportunity to go for the mile record. "Barney" George Robertson drove the red Christie car a fast exhibition mile this afternoon, but did not clock.

The car is running fine and wise ones predict that it will give some fast running during the Speed Carnival next week, commencing with the 22nd and continuing for three days.

Today was the day set for the Benson Flat match, but the unfortunate accident to the Fiat car called that event off and it was aimed to give the public several exhibition drives in order that the powerful racing cars might be seen in action.

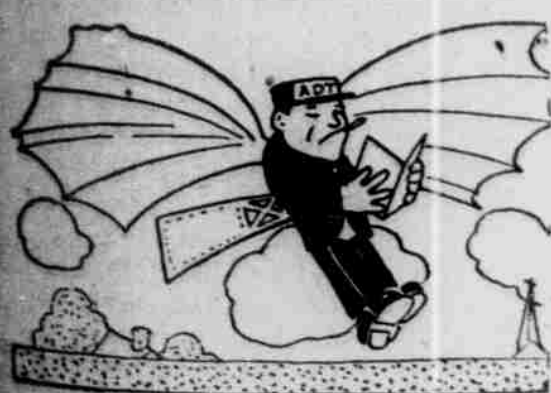

J. H. Donnelly, who has been here for two months or longer, visiting his family on Second avenue, leaves Friday for Housatonic, Mass., to look after business affairs.

Mr. and Mrs. George Stevens and friends, Mr. and Mrs. Weitzel, returned Monday afternoon from their trip to Palm Beach and Miami. They report a grand time.

Mr. and Mrs. Albert James and little son, Tommie, who spent the winter at Woodlawn, left Tuesday afternoon on their return to Ohio.

Wilbur N. Coleman, of Chicago, who has been visiting a few days with his cousin, Mrs. E. A. Bryant, returned home yesterday afternoon. While here Mr. Coleman visited Tampa, Fort Myers, Largo and various other towns on the West Coast. He made a purchase of a sixty-five acre tract of land, which has a fine orange grove on part of it. He intends to set out more trees at once. This tract is about twelve miles from Tampa.

Mr. and Mrs. F. H. Campbell, of St. Paul, guests at The Despland, will entertain a number of friends at a 7:30 dinner party at the Despland cottage Thursday evening. Eleven covers will be laid.

Modern methods give this drug store this precedence. Whenever in need of anything in this line, whether today or tomorrow, you will save time, money and annoyance by buying here.

GAVE ENTERTAINMENT AND ELECTED OFFICERS

The Parliamentary High School club met in regular session at the High school rooms on Friday afternoon, and rendered a very entertaining musical and literary program. Before the program the election of officers took place for a two months' term as follows: President, Hazel Meyer; vice president, Ethel Sebring; secretary, Linna Stuberford; treasurer, Albatrus Hankins; marshal, Allan Shaw; critic, Mertie Paine.

General Smith, a retired army officer, by invitation of Prof. Wright, addressed the school on the Defense of the Nation.

Willard A. Gibson, of Salamanca, N. Y., who is spending the season at Coronado Beach, was in Daytona Monday, calling on Mrs. M. J. Holmes of North Beach street, who is a friend of former years.

ENJOYED A PICNIC AND FISHING TRIP.

Mr. Foyce, and family, of Lowell, Mass., Mrs. Edick, father and daughter, Mrs. Bellisario and two children, Mr. and Mrs. J. E. Townsend and guests, Mr. and Mrs. Burnham, of Groton, Conn., made up an informal party of friends for a picnic and fishing party at Coronado Beach on Saturday. They made the trip in two cars. While the gentlemen industriously plied the hook and reel, the ladies went motoring to New Smyrna and enjoyed an hour's visit in the picturesque little town. Col. and Mrs. W. A. Burnham leave today on their return to Groton, but so delighted were they with Daytona after four days' visit that Col. Burnham has purchased two lots on Ridgewood Heights, one a corner lot, and will build a winter home here next season on their return.

AN AMUSING HAT PIN EPISODE AT THE DEPOT.

Apocops of the bill to be introduced in one of the State legislatures regulating the length of ladies' hat pins, an amusing incident occurred at the railroad depot recently.

A lady wearing a hat pin which protruded several inches beyond the rim of a very fair sized hat, became harnessed to the lady ahead of her just as the engine whistled for the station the pin being entangled in the other lady's hat.

There was an amusing moment or two for the onlookers, as the ladies endeavored to release themselves, which was finally accomplished by the lady impaled on the pin withdrawing it from the hat and handing it to the plainly embarrassed owner.

HOTEL MAN, CUPID CAUGHT; WEDS PRETTY YOUNG GUEST.

Henry H. Manwiler, of Boston, the popular proprietor of The Austin, and Miss Frances E. Gurney, of Boston, were quietly wed last Thursday evening, at 7:30 at the Congregational manse, on South Ridgewood avenue, in the presence of only the necessary witnesses, one of which was a friend of the groom, George Jackson, of Little Falls, N. J., Dr. B. F. Marsh, officiating. Mr. Manwiler bound Dr. Marsh over to secrecy for three or four days to escape the usual rice shower.

This is Mr. Manwiler's second season in Daytona as hotel manager, in which he has been quite successful, and has made many friends. The bride is a charming young lady, who has been spending the season here, guest at The Austin.

MAMMOTH STRIKE OF FIREMEN AND ENGINEERS.

STRIKE WILL INVOLVE TWENTY-SEVEN THOUSAND MEN—DATE WILL BE ANNOUNCED TODAY.

CHICAGO, March 15—The date for the beginning of a general strike of twenty-seven thousand firemen and engineers on forty-nine western and southern railroads will be announced to the committee of railroad general managers today.

President Carter, of the Brotherhood of Locomotive Firemen, Engineers and Committee were in session all night discussing strike plans. The decision to call the strike was reached at midnight by the general federated boards of western railroads of brotherhood, after the receipt of a letter from Chairman Nixon, of the railway managers' committee, finally refusing the men's demands.

The managers of the railroads involved appealed to Chairman Knappe, of the Interstate Commerce Commission and Commissioner of Labor Neill for mediation under the Erdman Act. The government mediators immediately telegraphed the firemen's committee asking acquiescence in mediation, but President Carter, of the Brotherhood of Firemen announced at noon that unless the managers made radical concessions before two o'clock today the firemen's committee will adjourn sine die, and members will arrange for immediate strike, beginning not more than five days off.

MRS. ALBERT R. JONES ENTERTAINS AT THE DESPLAND

Mrs. Albert E. Jones, of Lisbon, N. D., guest at the Despland, entertained a number of her North Dakota friends, and a few others, guests at the Despland, among which were Mesdames M. A. Hodgson and Sam Campbell, of Toronto, and Mrs. W. E. Caplon, of Minneapolis. In the Despland parlors Friday afternoon of last week, from two to five.

The function was one of the most brilliant at the Despland this season. The ladies were handsomely gown. Six tables were set for progressive bridge whist and two hours at the games were very much enjoyed. After the close of the game the cards were removed, damasks spread and elaborate refreshments served. Mrs. M. A. Hodgson won the top score and was awarded the prize, a beautiful ivory hand-carved candle stick with shade. Mrs. Jones is a popular society leader of Lisbon, and is a gifted and gracious hostess.

SAVANNAH LINE'S NEW PASSENGER STEAMER.

NEWPORT NEWS, Va., March 15—The palatial new passenger steamer, "City of St. Louis," built for the Ocean Steamship Company, of Savannah, was launched today from the yards of the Newport News Shipbuilding and Drydock Company. The steamer is a sister ship to the "City of Montgomery," which is now nearing completion at the same yards. Early in the summer the two vessels will be placed in the service of the Savannah Line between Boston, New York and Savannah.

REGULAR MEETING OF THE CITY COUNCIL.

BUSINESS OF THE MEETING WAS NOT COMPLETED, SO ADJOURNMENT WAS TAKEN UNTIL TONIGHT.

The City Council met in regular session Monday at the City Hall.

Following the disposal of several bills the report of the City Physician was presented and received. The report included a recommendation that the City Clerk be instructed to notify physicians and midwives to be more prompt in reporting births and deaths.

A communication from the Board of Public Works was then received and laid over until the next meeting. This communication stated that whereas in the past the city had been using water from the hydrants for street sprinkling, that in future application must be made in the regular way to the superintendent of the waterworks, who would grant permission to use the water upon payment of the established rates as per Rule Seven of the published Rules and Rates of the Board of Public Works.

A communication from E. N. Waldron in regard to extermination of English Sparrows was laid over.

The bond of W. H. Edmondson, as collector, was presented, accepted and filed.

The map of the City of Daytona by Hodgman, 1871, with sub-divisions by D. D. and C. M. Rogers, date of 1910, was designated as the official map of the city to be filed in the County Clerk's office for record as such.

Mayor Greene was authorized to have a water closet constructed at the city building.

Chairman Schmidt re-appointed the former Island Park committee of three members to act in conjunction with the Palmetto Club in regard to disposition of funds in the club's hands for improvement of the City Island.

The tax roll for 1910 was presented by Assessor W. M. Moore and the council then adjourned until tonight at 7:30 o'clock.

TO BEGIN FIGHT FOR RELEASE OF MORSE.

ATLANTA, Ga., March 15—It was learned today that Martin W. Littleton, a New York attorney, is expected here within a day or two to begin the great legal battle for the release of Chas. W. Morse, the New York banker, now undergoing sentence in the Federal Prison in Atlanta. It is expected that action in behalf of Morse will be instituted in the Federal courts here, though just what legal steps will be taken has not been made known.

Mr. Morse is reported to be in good health and spirits. Since his arrival at the prison he has been visited at regular intervals by Mrs. Morse and by W. P. Reid, his close personal friend and business associate. Several leaders of the Atlanta bar, who are expected to assist Mr. Littleton in the court proceedings, have also been in frequent conversation with the former banker.

WASHINGTON LETTER.

WASHINGTON, March 15—Thirty members of the Senate are in the last year of their present terms. The conventions or elections of the summer and fall will decide, in almost all the cases, whether the toga wearers shall return to their law practice or disport for six more years in the marble temple of the legislature.

In regard to several of the senators the question has already been settled the return of Senator Isador Raynor has been assured by the action of the Maryland legislature. Senator Hernando De Soto Money, the democratic leader will retire to his Mississippi plantation. They take a senatorial situation by the forelock down in Mississippi and in line with the honorable custom John Sharp, Williams statesman, scholar, lawyer and planter, was chosen several years ago to succeed Money. Williams was then the leader of the democrats and one of the most popular members of the house. Senator Flint (California) has said he would not be a candidate for reelection. In a statement issued a short time ago he explained that the great expense of carrying on a campaign under the California primary law was beyond his means, and that, besides, he felt it to be his duty to earn more money than comes in the Senate pay envelope to provide for the future of his family.

At the head of the list, alphabetically and otherwise, of those who will toe the mark and take the oath next March 4th, will be one Senator Aldrich, from Rhode Island. A vagrant rumor went the rounds last summer that Aldrich had decided to retire. When it was brought to his attention he remarked that he hadn't passed out authority to anybody to make such statement. So he'll come back.

They have been trying to build a fire under Senator Hale in the thirty state of Maine, but the Senator's friends declare that he will return again just as he has for thirty years. He stands beside Aldrich at the head of the regular organization in rank but not in influence. Other members of the old guard likely to return are Lodge (Mass.) and Dean, N. (J.) while Burrows, (Mich.) and Scott, (W. Va.) say they will be here too, though they are fighting for the honor in the face of lively opposition.

Four of the band of progressives in the Senate are under fire of the "interests" and, according to widely circulated reports, of the regular republicans, but they are fighting on cheerfully with the expectation of putting in six years more at the old stand. La Follette is, of course, an object of especial solicitude and extraordinary efforts are being made to overturn Wisconsin, where he has no friends but the people. Beveridge, now the undisputed republican leader in Indiana and a strong force in the Senate is up for re-election. Burkett has W. J. Bryan among other issues, on his hands in Nebraska, and Clapp seeks recognition in Minnesota where they are up to date and don't have moss on their political doctrines.

VANDALS ARE ROBBING DAYTONA GARDENS.

The handsome bed of calla lilies at the home of Mr. and Mrs. Chas. E. Gardiner, on North Beach street which has been such a prolific bearer this season, and attracted great admiration from the passersby, was Saturday night robbed of many of its blossoms while the family were away from home. This is an act of vandalism that meets with general condemnation. The residents of Daytona beautify their premises with the intention of giving out that much joy and happiness to all who visit or live in the city limits, and it is to be regretted that anyone should wish to selfishly appropriate what only belongs to another, but was generously meant for the pleasure of all.

A PENINSULA DRIVEWAY FROM PORT ORANGE TO PONCE PARK.

CONSTRUCTION OF THIS ROADWAY BEING AGITATED AND MEETING WITH VERY FAVORABLE RECEPTION.

W. V. Carter of Port Orange was in the city yesterday on business connected with the proposed roadway on the peninsula from Port Orange to Ponce Park.

Mr. Carter says the project is being very liberally supported from some quarters, but it is necessary to have \$500 in the bank before commencing, as that is the stipulation of the county commissioners to secure the use of the county convicts for the work.

W. C. Howes, a well known and prominent citizen of Port Orange, has been selected as treasurer of the road fund and donations toward it may be sent to him.

This road would add another popular drive to the many in this section and would place Ponce Park at all times within easy reach of Port Orange and Daytona, and be particularly valuable during race meets on the ocean beach, as automobiles and other vehicles could pass between this city and the further end of race course with out the need of going upon the beach at all.

The fact that the work of construction will be in the hands of Mr. Carter is a guarantee that it will be thoroughly and economically done, and automobile owners, especially should take an interest in the matter and give it their sanction and financial support.

MOTOR BOAT CARNIVAL AT PALM BEACH OPEN.

PALM BEACH, March 15—The sixth annual regatta of the Palm Beach Power Boat Association opened on Lake Worth today, to continue until Saturday. Motor boat enthusiasts are in attendance from every section of the country and the outlook is bright for the most successful regatta of the kind ever held in this country.

Seven races are to be held, three of which were provided for in today's program. The star event of the week will be the Palm Beach Grand Prize, valued at \$2,500 in gold. Other prominent events will be the races for the Palm Beach cup, valued at \$500, for speed boats, and the Association Cup, valued at \$500, for Florida designed and constructed boats.

Prominent among those interested in the regatta are Henry M. Flagler, the Standard Oil magnate, William K. Vanderbilt, Jr., William J. Conners, of Buffalo, H. E. Bemis, of the Royal Bermuda Yacht Club, and Harrison B. Moore, former commodore of the Atlantic Yacht Club.

A masque ball will be given at the Armory, Thursday, March 24, as a benefit for the City Island improvement fund.

One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River. Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid and liquid ready for a cruise upon this beautiful surface. Take out your flail glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood. Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide-spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artists' brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryptogams forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes. No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another, so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best. Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a fact must be apparent to the most

superficial observer. With such lav-
ish wealth of natural beauty it be-
came an easy thing for the hand of
man to give the finishing touches
which have wrought out the colors
and outlines of the big picture.

Man did all this in the laying out
of the streets with their wide margins
of parkage. The entire city becomes
a great park, with driveways inter-
secting miles upon miles of drive-
ways so good as to attract motorists
from all over the continent.

And as for the pavements, pave-
ments that look and act like granite,
—where else between the eastern
and western seas are so many miles
in proportion to inhabitants? The
pavement question stands with the
street as one of the chief drawing
cards.

Till some unheard of
place reports more and better, Day-
tona throws down the gauntlet to the
world.

Squirrels, Flowers, Birds and Frut.

Whatever one's shortcomings and
however indifferent or even callous
one may be to many things, the mere
mention of "flowers and Squirrels,
birds and fruits" will send a thrill
that is reflected in distended pupils
and pricked ears.

For every visitor with a spare goo-
ber there is a bunny ready to come
and accept your gift. He will sit bolt
upright and know into the meat,
casting furtive, saucy glances at you
meanwhile.

Flowers. Usually fresh and bloom-
ing the year 'round You are reminded
of Goldsmith's couplet where
Smiling spring its earliest visit paid
And summer's lingering blossoms
are delayed.

In one yard roses of variegated hues
predominate; another household has
a penchant for the poinsettia and the
premises are aflame; another is hid-
den in a jungle of tall cane. Variety
is the spice of life and here is where
you find it.

The birds flit in, and with their
joyous notes help to give fullness
and symmetry to the picture.

As for fruits, choice citrus fruits,
Daytona yields the palm to none for
quality and quantity per acre. There
are scores of citrus groves in prox-
imity to the city, branches bending
to the earth with their burdens of
luscious golden globes, which for
beauty, prolificacy and all desirable
qualities would truly astonish you.

The Fastest Autos and The Finest
Out.

The seventh world wonder, do you
ask? Come, whether from Missouri
or from Maine, from Kalamazoo or
Timbucktoo, and you will be "shown."
Here is where the world's record for
speed is broken with every recurring
season. Autos, the biggest, the fast-
est, and the finest are on daily parade
and the big show is as free as the
pure artesian water from the thous-
ands of flowing wells. It is a con-
tinuous show with constantly shift-
ing scene.

Everything goes, from a 2-horse
power, up to a 200-horse power, and
all degrees of speed from acanter to
a two-mile-a-minute clip. You will
probably catch the spirit, when you
do the roads and the beach are yours.
The Florida sunshine is free, the
balmy ocean breezes are free, the
birds and squirrels and flowers are
free, the sparkling fountain water is
free and you will have to go down in-
to your wallet only for coin for auto,
and bed and board.

This is no fanciful picture; it's all
here. It is drawing other thousands
and holding them enthralled, it will
charm and hold you. Come and see.

Seabreeze and Daytona Beach are
essentially summer and winter re-
sorts and are making hundreds of
new friends every year among those
who desire to escape the discomfort-
ing extremes of heat and cold, and
their hotels and boarding houses
are now receiving splendid patron-
age from the most discriminating
class of tourists.

The mean average temperature, 80
degrees in the summer and 70 degrees
in the winter, with an occasional
extra rise or drop of a few days' du-
ration, marks this as one of the most
healthful locations in any section of
the country, north, east, south or west.

The ocean itself, with its marvelous
beach, hard as macadam and smooth
as a floor, is the greatest attraction,
although earth and air and sky seem
to have entered into a combination
to enhance its every charm. The
beach is the famous automobile race
course where every world's straight-
away record has been made, and all
these records it continues to hold
without rivalry.

The sand of this famous speedway
is composed largely of the shells of
the ququina clam, which are about
one-half inch long and very thin.
For ages Nature has been rolling
them up, washing them back into the
surf and pulverizing them. Examined
under the microscope each particle
is round, unfit for mortar, builders
say, because its smoothness prevents
its holding together, yet, strange to
contemplate, the very moment a wave
leaves the wet, apparently soft beach,
these round particles settle down
into a cement almost as hard as as-
phalt, beyond the comprehension of
one who has not seen it. Repairs are
unnecessary, as twice each 24 hours
it is entirely rebuilt by the tides.
The beach has a width of 300 to 500
feet, and can be used from two hours
after until two hours before high tide,
thus giving an average of seven or
eight hours for automobiling some
part of each day.

Seabreeze and Daytona Beach each
have a permanent population of ap-
proximately 1500. Sanitary ordi-
nances are strictly enforced, streets
and sidewalks are well kept, and
new streets are being opened as fast
as the increasing population de-
mands. Besides hotels and boarding
houses there is ample cottage accom-
modation for all winter visitors.

Seabreeze contains a handsome
opera house and a Congregational
Church; at Daytona Beach is a M. E.
Church. An excellent high school
is situated near the division line be-
tween the two towns. Both towns
have enterprising business establish-
ments, as is evidenced by the
advertisements on the left and right.

All the attractiveness of Seabreeze
applies to Daytona Beach, the two
towns being so similarly situated.
The development of Daytona Beach
has been fully as phenomenal as its
sister on the north, and each year
there is a substantial growth. The
great sand dunes have been leveled
and handsome homes have been
built for both winter and all-year-
round occupancy. Flowering shrubs
have been planted, which are covered
with a wealth of bloom both summer
and winter.

Work of rebuilding the Clarendon
hotel is now in progress. This mag-
nificent fire-proof structure, which is
to contain 250 rooms, when com-
pleted will be the peer of any hotel
in Florida. The site is immediately
north of the clubhouse of the Florida
East Coast Automobile Association.

The Ocean Pier is a great attraction
to fishermen and it is lined summer
and winter with enthusiastic disci-
ples of Iziah Walton, who find it
nothing unusual to land fish weigh-
ing several hundred pounds.

PROGRESSIVE NEW SMYRNA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low. A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicer. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient well.

CORONADO

Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK

A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

ORMOND-ON-THE-HALIFAX

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach.

Many fine residences are maintained on either side of the river, most of them embellished with subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine fruit, good fishing, excellent automobile, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Bretton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of plantations of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers.

Five miles further on you come to Moundgrove, one of the finest orange groves in this section of Florida. Moundgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road [passing Number Nine] and is a drive all tourists may enjoy.

COTTAGES AND ROOMS TO LET—Furnished; Modern Improvements; on River Front or Side Streets. Rents Reasonable. Write to W. F. COLBY at Ormond.

DELAND, THE ATHENS OF FLORIDA

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that Deland is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute.

From Deland automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from Deland to Orange City, five miles, and a good road from Deland to Lake Helen, a like distance.

LAKE HELEN

Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY

The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

Dr. J. D. Fernandez, one of the foremost physicians of the State, arrived Monday with the following auto party, Miss Bertha Barnett, Master Arthur Barnett, of Jacksonville, and Miss Alice Chaffee, of Rutland, Vt., making the trip in four hours. Dr. Fernandez reported the roads in fine condition. They stopped for the night at The Palmetto, and left on Tuesday morning for Palm Beach, their point of destination. Dr. Fernandez has made room reservation for himself and party at The Palmetto for Thursday, on their return trip.

Dr. and Mrs. B. F. Marsh had a pleasant visit Saturday morning from Ray Ferran and his brother, Rev. Clarence Ferran, the latter of whom is pastor in charge of the Presbyterian Church at DeLand. The two brothers graduated at Eustis Seminary, while Dr. Marsh was president, and consequently there is a warm attachment between them. Mr. Ferran, who is a resident and business man of Eustis, made an unusually quick trip across country, taking a country road by way of Cassia. He left Eustis twenty minutes before six; stopped an hour at DeLand, where his brother joined him, and arrived at the manse shortly after ten o'clock.

A PLEASANT HALF HOUR IN THE WALDRON GARDEN.

By invitation of Mr. and Mrs. E. N. Waldron, of Ridgewood avenue, on Sunday afternoon a party of tourists and others, had a pleasant half hour's walk through their extensive grounds, running back some six hundred feet or more from Ridgewood. The garden presents a rambling appearance of old fashioned promiscuousness, full of pleasant surprises, and as far as possible removed from the made-to-order, straight jacket beds of the usual green house gardens. In fact, Mr. Waldron has encouraged nature to follow her "bent" as far as possible, only using the pruning knife here and there to trim down her exuberant productivity.

The special object of this visit was to see a yellow jessamine bordered walk, which extends almost the entire length of the grounds, turns and reverses in the same direction. The vine is roped from tree to tree, most of the trees being small oaks; has entwined itself in the top growth, and is just now a wealth of golden blossoms. At one point the vine has climbed to height of forty feet and is floating its yellow banners to the breeze from a giant pine tree. Standing where the pathway turns it is indeed beautiful sight to look down the length of both winding paths lined with thick clusters of the beautiful flowers which should be our State emblem.

There are many rare trees, shrubs

and vines thriving under Mr. Waldron's sympathetic care, whose botanical names are too unfamiliar to risk mentioning. A beautiful wild cherry tree, a plum tree and several peach trees are in full bloom. There are a number of bearing pecan trees, and we noted a Marshal Neil rose bush covered with buds and flowers. Part of the grounds have been sowed to buckwheat to feed the quails and other birds, a thoughtful provision for his little feathered friends. Mr. Waldron has been troubled with poachers recently, boys who have been trying their bean flippers on the birds which his encouragement has made quite tame. He is sharp after these law breakers, and they are sure to be brought to time if they persist in hunting on his grounds.

HOME CURE FOR ECZEMA

Does it not seem strange that so many people suffer year in and year out with eczema.

A 25 cent bottle of a simple wash stops the itch and will surely convince any patient.

This wash is composed of mild and soothing oil of wintergreen mixed with thymol and glycerine, etc., and is known as D. D. D. Prescription. We do not know how long the D. D. D. Laboratories will continue the 25 cent offer, as the remedy is regularly sold only in \$1.00 bottles and has never before been put on the market on any special offers.

If you want relief tonight try a bottle at 25 cents on our personal recommendation. Atwood Pharmacy.

A MUSICAL EVENING

AT THE IVY LANE INN.

The musicale at the Ivy Lane Inn last night afforded a beautiful evening to the guests at the house, as well as to Mr. and Mrs. Foltz, host and hostess' music loving friends, which filled the parlors.

The decorations were palms and pot plants, so arranged to screen the musicians from the company, and vases of calla lilies and other flowers lent their sweetness and beauty to the occasion.

To say that the program was under the direction of Mrs. M. Huston is sufficient guarantee of the high order of the entertainment, which mention of the performers will further verify.

The orchestra opened the program with Wagner's Tannhauser, followed by Mrs. W. C. Chowning with two vocal solos, A Heart's Whisper and The Shoozy Shoo. The third number was an orchestra selection, Idylle, followed by two vocal solos by Mr. Lane, Only a Rose and If I but Knew; orchestra La Cinquantaine. Then came Major Downing, accompanied by Mrs. Downing, The Mocking Bird, which received the usual ovation. The sixth number was a duet by Mrs. Chowning and Mr. Lane, Somebody Loves You Dear and Schubert's Serenade. Major Downing then gave his famous rendition of the Old Camp Meeting, which closed a most enjoyable evening with the musicians, during which the audience expressed their appreciation of every number given. The orchestra composed Mr. and Mrs. C. H. Willson, Theo. Sengstak and Mrs. Huston. Miss Blackmore, Mrs. Chowning's sister, who is an accomplished musician, accompanied Mrs. Chowning and Mr. Lane.

Exhibition Races and Time Trials

SPEED TOURNAMENT MARCH 15, 22, 23 AND 24, 1910

GENERAL INFORMATION

An admission fee of 25 cents each day will be charged all spectators within the enclosure to the races, both the exhibition and the record trials. The meet is not conducted as a money-making event, but the small charges are made to help meet the enormous expense of conducting the meets.

A fee of 50 cents will be charged all automobiles and carriages parking west of the clubhouse along Halifax avenue. The Florida East Coast Automobile Association has leased this property for the occasion and will exercise supervision over it.

Parking spaces for automobiles will be provided on the beach at \$2.00 per day, or \$5.00 for all the events in addition to the regular admission price. These spaces may be purchased in advance at Hankins' Drug store, and the purchasers will be entitled to the spaces which they select, the first applying to have the choice.

The Ocean Beach has been set aside as a race course March 15, and March 22, 23, 24, 25 and 26, 1910, and the Sheriff of Volusia County, and the Florida East Coast Automobile Association jointly will have charge of the same.

Those desiring to obtain privileges of selling refreshments in front of the clubhouse may apply to the Secretary.

No persons except officials will be allowed on the course during the races or while cars are being tried out and anyone disregarding this rule will be subject to arrest.

Owners of dogs are especially requested to keep the animals off the beach, as their presence would endanger the lives of drivers. Dogs found on the beach during the days of the events will be summarily shot.

Only members of the Florida East Coast Automobile Association, their immediate families and a limited number of guests are allowed access to the clubhouse. No male resident of Volusia County is eligible to be a guest.

All races will either start or finish in front of the grand stand.

Grand stand admission will be 25 cents, or boxes holding 6 persons may be secured for \$3.00 per day. Tickets for boxes will be on sale at Hankins' drug store.

A Person is Often Judged by His PRINTING

It should be up-to-date the same as you would have your clothing up-to-date.

THE DAILY NEWS JOB PRINTING DEPARTMENT

Has just received over one thousand pounds of the most Modern and Pretty faces of Type. This in itself is not so much but our workmen are artists in their line and the combination of Modern Type, First-class Workmanship and Good Paper is what produces

EXCELLENT PRINTING

A new press has also been installed by the Daily News—a Mergenthaler Linotype is also among the new acquisitions to the plant. All this in itself may be of no particular interest to you but it helps bear out the assertion that the Daily News produces the Best Kind of Job Printing. And bear in mind the best kind costs little more than the "botchy" kind.

Our Specialty is Catering to the
Wants of Particular People. . . .

Little Boy Blue, come blow your horn;
If you don't it won't be blown.
The people won't flock
To buy your stock
If you never make it known.

So, Little Boy Blue, come blow your horn;
It's the proper business caper,
And the very best way
To make it pay
Is to blow it through this paper.

FLIGHT OF BIRDS.

Rapid Wing Movement Does Not Always Imply Speed.

Birds have different modes of flight just as men have different gaits in walking or running. Rapid wing movement does not always imply speed in flight any more than rapid leg movement implies speed in walking or running. With us it is the length of the stride that tells ultimately. What, apart from wing movement, tells in the bird's flight is not known.

Speaking broadly, long winged birds are strong and swift fliers; short winged birds are feeble in flight. When we consider that a cumbersome, slow moving bird like the heron moves its wings twice per second when in flight it is evident that many birds have a very rapid wing movement. Most small birds have this rapid wing movement with feeble powers of flight. The common wren and the dipper, for instance, have a flight like that of a young bird.

Many of our smaller migrants seem but to flit from bush to bush or from tree to tree. Members of the thrush family are low fliers, the blackbird in particular, with its hasty, hurried flight, often just avoiding fences and no more. Wagtails have a beautiful undulating flight with little apparent use of their wings. They look like greyhounds bounding through the air. Nearly all birds sail or float occasionally without the slightest movement of their wings. Even a large bird like a pheasant will glide in this way for more than two hundred yards.

Grouse have a rapid wing motion without any great speed, but when they sail, coming down with the wind, as they prefer to do, they go very fast. Before alighting they flap their wings several times very rapidly, like the clapping of hands. Most birds after gliding do this. Does it correspond to putting on the brakes or reversing the engine in the case of mechanical locomotion? With little apparent use of its wings the wood pigeon flies very strongly and rapidly. It never seems to "bring up" much before alighting, but crashes into a tree at full speed. When it rises its wings crack like pistol shots.

Ducks are strong on the wing and often fly in single file. Geese will fly wedge or arrowhead shape, generally at a considerable height. So do many gulls and other sea birds, in a stately, measured fashion, their calls occasionally sounding like "Left, right, left, right."

Kestrels have a beautiful, clean cut, clipping motion of their wings and look like yachts sailing through the air, while their hovering in the air is one of the mysteries of bird life. Peewees, which are so graceful in their motions on the ground, look like enormous bats when in flight. Swallows and in a very marked degree swifts have rapid wing movement with great speed and extraordinary power of flight.—Scotsman.

One Cold Saved.

Logic is logic, whether it touches the affairs of nations or a cold in the head. The conviction, says London Tit-Bits, was forced upon a Liverpool woman whose coachman, although he had been ill for several days, appeared one morning with his hair closely cropped.

"Why, Dennis," said the mistress, "whatever possessed you to have your hair cut while you had such a bad cold?"

"Well, mum," replied the unabashed Dennis, "I do be takin' notice this long while that whiniver I have me hair cut I take a bad cowl, so I thought to meself that now, while I had the cowl on to me, it would be the time of all others to go and get me hair cuttin' done, for by that course I would save meself just one cowl. Do you see the power of me reasonin', mum?"

Littlest Father.

The woman who came to clean up was telling how she left her boy to take care of the baby. The boy was two and one-half years old. The baby was six months.

"That's the youngest little father I ever heard of," said the flat dweller she was cleaning up for. "Do you lock them in?"

"Yes," said the cleaning woman. "Poor little fellow!" said the flat dweller. "Locked in to burn in case of fire! Some day when you are cleaning up for me I want to go over and see that little father, who ought to be in the cradle himself, taking care of the six-month-old baby. I want to just sit there and look on awhile. Poor little fellow!"—Chicago Inter Ocean.

What Accountancy Means.

Accountancy is not and never can be a matter of abstract knowledge to be transferred by means of lectures, but is the art of knowing how to apply that knowledge to the requirements of business under very varying conditions. It is essentially something that cannot be taught in lectures or classes, but can only be acquired as a result of careful individual study and a reasonable amount of actual practice.—Bookkeeping.

After the Honeymoon.

"Pa, what's the difference between idealism and realism?"
"Idealism, my son, is the contemplation of marriage; realism is being married."—Boston Transcript.

Greatly Overestimated.

Hewitt—Half the world doesn't know how the other half lives. Jewitt—I think you overestimate the number of people who mind their own business.—Brooklyn Life.

Do not think that years leave us and find us the same.—Meredith.

ON THE WITNESS STAND.

The Right of a Witness to Qualify His Answers.

Like Stevenson's child, as a rule, the witness should speak only when he is spoken to. He should not volunteer anything except that when he is asked a question which with apparent innocence could really be answered "Yes" or "No" he has a right to qualify a plain "Yes" or "No." This of course happens most often in the case of experts. The "Yes, but I will explain," and "No, but I will explain," of one of the distinguished expert witnesses for the commonwealth in the case of commonwealth versus Quay, which was tried before Judge Biddle in the court of quarter sessions of Philadelphia county several years ago still linger in the writer's memory.

It is a mistaken notion that a witness is bound to answer "Yes" or "No." It is surprising that such should have ever been the received theory, but then the hunting down of witches and the expounding of the doctrine of witchcraft were regarded as proper judicial functions only a century or two ago. The theory as to categorical reply was completely exploded by the gentleman who propounded the question, "When are you going to stop beating your wife?" and demanded a categorical answer. If the lawyer attempts to tell you that you must answer "Yes" or "No" you have the right to say that the question is one which is not susceptible of a categorical answer. This should floor counsel for the moment.

Mannerly behavior on the part of witnesses includes keeping one's temper under almost all provocations. Cross examination for the purpose of testing your memory is not intended to be and should not be regarded as insulting. It should therefore not be resented. If the cross examination transcends all bounds and your patience is exhausted a sharp retort will not necessarily injure your testimony with the jury. The jury sympathizes with the witness more than with the lawyer, and, while mere smartness for the sake of being smart or because of a too expansive personality is to be deplored, you will be sure of a sympathetic audience if you are in the right and counsel in the wrong.—Ira Jewell Williams in Green Bag.

UNDER AN UMBRELLA.

An Expensive Adventure of a Famous Parisian Wit.

Romieu, the famous Parisian wit, was one day caught in a shower and forced to seek refuge in a doorway of the opera house. It was 6 o'clock already, and he had an engagement in the Cafe de Paris for that very hour. The rain fell in torrents. There was no carriage to be had. He had no umbrella. What was to be done? While he was lamenting his bad luck a gentleman with a large umbrella passed by. Romieu was seized with a sudden inspiration. He rushed out and grasped the stranger by the arm and gravely installed himself under the protect ing umbrella.

"I am overjoyed to see you," he immediately began. "I have been looking for you for two weeks. I wanted to tell you about Clementine."

Without giving the stranger time to express his surprise Romieu rattled away with gossip and anecdote until he had led the unknown companion to the door of the Cafe de Paris. Then he glanced at him with a face of well feigned astonishment.

"Pardon, monsieur!" he cried. "It seems I am mistaken."

"I believe so," said the stranger.

"Good gracious!" added Romieu. "Be discreet. Don't repeat what I have told you."

"I promise you."

"A thousand pardons!" Romieu hastened within the cafe and amid great laughter told the adventure to his friends. Suddenly one of them said:

"Your cravat is rumpled."

Romieu put his hand to his neck and turned pale. His pin, a valuable sapphire, was gone. On further examination his purse and watch were found to be gone. The man with the umbrella was a pickpocket.—London Tit-Bits.

An Italian Superstition.

There is an Italian superstition that whenever a king belonging to the house of Savoy dies a huge eagle is to be seen crossing the Alps over the valley of Aosta in the direction of Savoy, and the conviction prevails among the inhabitants of Aosta that this eagle guides the soul of the dead sovereign to join those of his ancestors in Savoy. When King Charles Albert died at Lisbon, King Victor Emmanuel died at Rome and King Humbert was assassinated at Monza in 1900 the eagle was seen winging its way across the Alps. All other eagles crossing the Alps don't seem to count for much.

Ancient Ropes.

Ropes made of various kinds of fiber and leather are of very ancient date. Ropes of palm have been found in Egypt in the tombs of Beni-Hassan (about 3000 B. C.), and on the walls of these tombs is also shown the process of preparing hemp. In a tomb at Thebes of the time of Thothmes III. (about 1900 B. C.) is a group representing the process of twisting thongs of leather and the method of cutting leather into thongs.

Mr. and Mrs. H. C. Mercereau, Mrs. L. L. Barney and L. Potter Burnette, tourists hotel guests spending the season in Daytona, came up Saturday from Palm Beach from a week's touring trip, and joined their friends on Ridgewood avenue.

C. S. Bradley, who recently purchased a lot on South Palmetto avenue, has let the contract to L. Z. Burdick for a four room bungalow. The contract calls for the completion of the cottage by October 1st. Mr. and Mrs. Bradley leave next week for Minn., but expect to return here early next fall.

Mr. and Mrs. George Stephan and Mr. and Mrs. C. E. Wetzell, in Mr. Stephan's launch, "The Nedaline," having spent a week at Palm Beach and the towns along the East Coast, are returning to Daytona where they have been spending the winter on Ridgewood Avenue. They report a pleasant trip.

Mr. and Mrs. M. L. Stanley and Mr. Stanley's parents, Mr. and Mrs. A. H. Stanley, who have been spending the winter here as usual left this morning on their return to Winthrop, Maine, stopping at various points enroute. Mrs. M. L. Stanley has not been feeling well for several weeks and it was thought that the change to a higher altitude would be beneficial.

Mr. and Mrs. E. T. Conrad entertained a boat party at the Inlet Sunday. They made the trip on the boat, Jean, and the following guests were aboard: Mr. and Mrs. H. Carlton, ex-Mayor Percy Jones, of Minneapolis; Mrs. Ulrich Conrad, Miss May Conrad, Mrs. F. N. Conrad and little Miss Jean Frances. Mr. Carleton is a prominent lawyer of Minneapolis. Mr. and Mrs. Carleton and friend, Mr. Jones, are guests at Ivy Lane Inn.

A good friend of the library sat there one afternoon and saw the multitude of flies, which the rubbish heap attracts. Presently he disappeared, and in a few minutes returned with a liberal supply of fly paper. At the closing hour this fly paper was generously supplied at all of the tables of the reading room, and the next day six hundred flies were swept from the tables and floor and cremated with care. Doubtless several hundred more would have been gathered in had the librarian been less busy. I am sure the guests of the reading room are very grateful to the man who did the deed.

\$300 REWARD.

Among some articles of jewelry lost from a house in Seabreeze, March 9th, three articles of jewelry are of value from association, and for the return of one diamond and sapphire ring, one diamond ring with center stone and a number of small ones on each side of it, and one blue enamel locket, a reward of \$300 will be paid and no questions asked. Absolute sincerity guaranteed, and proposal for exchange may be addressed to KEEPSAKES, Lock Box 514, Daytona post office. 10-6tw-1t

Mr. and Mrs. F. A. Allen, who have been spending the winter at The Wilmer, leave Saturday on their return to Cedar Rapids, Iowa.

Jos. Dawson, the popular hardware salesman of Orlando, has been a guest of the City Hotel for several days while here on a business trip, leaving again this morning.

H. E. Pence arrived Monday from Minneapolis, Minn., and joined his family on South Palmetto avenue. They will probably return North with him in about a week's time.

Joseph Becker, a nephew of Capt. C. A. Young, arrived recently from Holyoke, Mass., and is visiting with Captain and Mrs. Young, at their Daytona Beach home. Mr. Becker is a prominent wholesale grocer of Holyoke.

C. S. Bradley, who recently purchased a lot on South Ridgewood avenue, adjoining the F. A. Allen property, is having the lot grubbed and leveled and put in order for building a home.

Mr. and Mrs. H. B. Stedman and Dr. and Mrs. P. H. Ingalls, of Hartford, Conn., friends of Mr. and Mrs. J. B. Moore, are again Daytona visitors, Mr. and Mrs. Stedman having arrived Sunday and Dr. and Mrs. Ingalls on Monday night.

P. B. Williams, of Norfolk, Va., arrived in the city Saturday night. Mr. Williams is superintendent of agencies for the Southern Mutual Aid Association, of Birmingham, Ala., and will be here a few days in conference with the local agent, I. J. Price.

L. Gaus, an uncle of Mrs. August H. Schmidt, and his son and wife, Mr. and Mrs. H. L. Gaus, of Brooklyn, N. Y., arrived Monday and are with Mrs. Schmidt at the hotel. Mr. and Mrs. H. L. Gaus are direct from Brooklyn, but the elder Mr. Gaus came up from Merritt's Island, where he had been stopping for some time.

Mr. and Mrs. F. A. Allen have moved into their new cottage on South Palmetto avenue, on which Mr. Allen is doing the finishing work, though certain parts of the interior decoration and the furnishing will hold over until their return here next fall. The house is snugly planned; includes all modern conveniences and comforts in a compact space, and is a bright, attractive home for two.

J. Milligan and son, who have a five-acre tract of ground cleared of less than two years of virgin undergrowth, have been shipping vegetable truck for nearly three weeks past. They first made trial shipments to different points to select the best markets. This week they are shipping lettuce, cabbage and celery to Baltimore and Richmond. The frost came in time to cut off the first crop of strawberries in the blossom, and now the beds are just beginning to bear again.
